DISCOUNT SHEET

Wholesale Discounts and Terms

Every quotation in this Catalogue No. 111 is a LIST PRICE and Subject to a Uniform Wholesale or Trade Discount of

70 Per Cent. Off

and the following cash discounts: 6 Per Cent.—10 Days. 5 Per Cent.—30 Days—(Time Limit.)

Our regular open account time limit is 30 days.

All accounts payable at our office in New York or subject to draft.

When remitting, always be sure and enclose money enough to cover post office charges if ordered by mail. If overpaid, we will refund the balance with bill.

No new accounts opened, as a rule, unless accompanied by satisfactory business references.

No new accounts opened for less than Five Dollars. Remit cash for small orders.

A deposit of 10 per cent. required on all C. O. D. orders. No C. O. D. orders filled for less than Five Dollars.

We pay return charges on C. O. D. orders amounting to over Twenty Dollars.

We invoice all goods at net prices, subject to cash discount only.

NO DISCOUNTS APPEAR ELSEWHERE IN THIS CATALOGUE. FOR OTHER PARTICULARS, GENERAL INFORMATION, ETC., SEE PAGES 3 AND 4.

A quick way to find the actual cost on 70 per cent. list is to multiply the list price by three (3) and then erase from the total amount the extreme right hand figure.

EXAMPLE— 25.67 list price.
3
7.70 1 net price.

Subject to cash discount only.

IMPORTANT

We would advise quoting your customers a smaller discount on low priced articles than on the higher priced ones. For instance if you were asked to order an article listed at one dollar, this may cost you, including postage, etc., 40 cents net. If you gave your customer 30 per cent. discount you would make a little less than 100 per cent. profit, which you can easily make on our jewelry.

FOREWORD

Profitable results invariably follow the constant use of this book, results that are naturally to be expected, since we, being the leaders in our line, exert every effort in presenting only such goods as are always dependable as well as fashionable, and hence salable.

And as "profitable results" is the aim of all reputable mercantile energy and enterprise the great commercial value of this book is powerfully proven, while its fifty years of existence afford conclusive evidence of its rare merits, as well as its appreciation by our many customers.

No price could be low enough, no temptation great enough to induce us to handle any goods of a doubtful quality,

Merchants in the smaller cities are not warranted in investing large capital to carry in stock large assortments, and therefore this catalogue is practically a Stock in Trade—A Book to Buy From, A Book to Sell From.

All goods furnished exactly as illustrated—and guaranteed exactly as represented.

Since a vast number of orders reach us in letters we devote particular attention to our mail order department. Experience has taught us to interpret with exactness the wants of our customers as expressed in writing, and our perfectly constructed system is adjusted to handling such orders quickly and accurately.

Friends who may happen to be in the Metropolis are cordially invited to pay us a visit. Respectfully,

S. F. MYERS CO.

NO. 1. JUST AS YOU ORDER.

Orders for goods illustrated in this catalogue should be sent direct to us. All engravings therein are made from **photographs of the articles,** and in many instances are only to be purchased of **or through us.** Should orders for our goods be sent inadvertently to competitors, they are liable to substitute an inferior article of a similar design, at the same price.

NO. 2. EXCHANGING GOODS.

We will allow you the privilege of returning for **exchange unsatisfactory articles, excepting goods engraved or especially made to order,** provided they be returned to us in 15 days, in perfect condition, and **free of expenses.**

NO. 3. SAVE EXPRESS OR FREIGHT CHARGES.

In the course of a year a considerable sum of money can be saved by sending all your orders for goods in our line to our house, and have the goods reach you promptly and in one package or shipment, thereby avoiding unnecessary delays and several express charges.

NO. 4. CLAIMS AND GUARANTEE.

Before making claims for shortages, be sure to examine carefully the paper or excelsior used in packing. All our shipments are **checked four times** before leaving the house in order to detect any omission.

NO. 5. ORDER BLANKS TO COPY ORDERS.

Upon application we will furnish gratis our regular order blanks, printed with copying ink, also addressed envelopes.

NO. 6. ONE CUSTOMER IN SMALL TOWNS.

We prefer to have but one customer in a town and will place only such on our mailing list, provided we can be assured sufficient trade to warrant the advantage thus conferred. **If interested, write us.**

NO. 7. REFERENCES.

We are pleased to open accounts with responsible dealers. The first order should be accompanied with reference in New York or any of the principal cities. Reasonable time should be allowed for the reply, excepting in cases of parties of unquestionable rating.

NO. 8. DAMAGES IN TRANSIT.

We employ none but experienced packers, and exert the greatest care in packing goods, especially fragile wares, such as chinaware, cut glass, clocks, etc. We procure receipts from express or freight companies as evidence of good condition of shipments, but in spite of all precautions breakages will occasionally occur in transit. If the damage is of a slight nature we will cheerfully repair the same free of charge providing the goods are delivered to us free of expense. If the damage is of a serious nature our charges will be for actual cost only.

NO. 9. SMALLEST NEW ACCOUNTS.

We place no new accounts on our ledger for less than $5.00. Cash should accompany all first orders for a less amount. We ship no C. O. D. orders for less than $5.00.

NO. 10. CASH ORDERS.

Enclose money enough to cover order and charges, particularly if goods are to be sent by mail. We will refund any amount overpaid.

NO. 11. TERMS AND REMITTANCES.

On open accounts our time limit is 30 days. **Remittances** may be made by drafts on New York Banks, Express Money Orders, Post Office Money Orders and Postal Orders. When out-of-town checks accompany cash orders from parties who are not rated, such orders will be delayed until checks are paid. We prefer that remittances for less than $2.00 be made by money order or postal note. **Always mention in your letter the exact amount of your remittance.**

NO. 12. DIVIDE ORDERS.

Write plainly and always put but one item on a line. To facilitate the filling of orders correctly, we would suggest that you classify goods according to the departments as follows: 1, Watches; 1D, Diamonds; 2, Gold Jewelry; 2P, Plated Jewelry; 3, Tools and Material; 3O, Optical Goods; 3P, Photo Goods; 3M, Musical Merchandise; 4, Cut Glass and Umbrellas; 5, Silver Ware; 5C, Clocks; 6, Repairs; and all other lines as **Miscellaneous.** This will save us time in analyzing and copying and insure the prompt filling of the order in all departments at one time.

NO. 13. SECOND CHOICE.

When goods are wanted urgently for a special occasion, or during the rush of the Holiday Season, it is always advisable **to distinctly mention in the order a second choice.** We may be temporarily out of the article desired, and a second or even a third choice will assist in prompt service.

NO. 14. SHIPPING DIRECTIONS.

Invariably give Full Name, Post Office Address of Town, County and State with all orders. Also instructions as to where and how the goods are to be sent. **In ordering bulky goods** always state whether they are to be shipped by freight or express, and the name of any **particular line that may be preferred. When shipping instructions are not given in the order we will use our best judgment.**

NO. 15. INSURE GOODS TO BE SHIPPED BY MAIL.

We issue policies on the Home Insurance Co., of New York, and recommend their use. Unregistered mail may be insured for amounts up to $10.00 at a cost of 5c for each $5.00 package. Registered mail can be insured up to $100.00 at a cost of 5c for $25.00, or 10c for $100.00 package. If you wish your mail matter insured, mention distinctly with each order, **"Insure."** Unless your mail matter is insured, it is absolutely at the risk of the purchaser. We register packages ordered by mail when the value is over $1.00, unless otherwise instructed.

(Continued on next page.)

GENERAL INFORMATION, RULES, ETC. Continued.

NO. 16. MERCHANDISE RATES BY MAIL.

Open Mail Postal Rates are 1c per ounce; no single package to exceed 4 pounds. The average cost of a lady's watch is 5c; a gentleman's, 8c; chains, rings and small items of jewelry, 2 to 3c each. The cost of registering is 10c additional per package, which assures a receipt for the goods from the New York Post Office, but does not guarantee delivery. **All mail packages are sent at the purchaser's risk,** unless insured.

NO. 17. INSURE GOODS BY EXPRESS.

The reduced rates at which the express companies are insuring valuable parcels makes that the most economical and safest way of insurance, settlements being quicker in case of loss. Expense is 15 cents per $100.00 or fractions thereof. Whenever sending a package, value over $50.00, always mark the exact value, so that you can recover the full amount of the value of your goods in case of loss. The express companies are not liable for packages over $50.00, if the value of the package is not marked.

NO. 18. C. O. D. DEPOSIT.

Goods shipped "Collect on Delivery" to all parts of the world. All C. O. D. orders must be accompanied with a deposit of 10 per cent of the amount of the order, or enough to cover the cost of express charges both ways, which amount will be deducted from the invoice. We ship no C. O. D. packages for less than $5.00, preferring that you remit cash for smaller orders. We pay the expense of returning money on C. O. D. shipments amounting to over $20.00 net.

NO. 19. C. O. D. EXAMINATION.

Before paying C. O. D., examination will be allowed express companies, but no portion of the C. O. D. can be selected, as this is against the rules of all express companies.

NO. 20. C. O. D. BY FREIGHT.

Bulky goods, such as clocks, silverware, machinery, etc., are sent C. O. D. by freight marked **"Order of S. F. M. Co.,"** the invoice being mailed direct to the buyer, and the bill of lading (indorsed by us over to him) accompanied by a draft for the amount of the bill (less deposit) is sent to the nearest bank for collection. Upon payment of this draft, the bill of lading will be delivered and goods can be procured from the Railroad Agent. Shipment by freight requires longer time than by express, according to the distance.

NO. 21. GENERAL INQUIRIES.

Please use a separate sheet of paper with name and address for general inquiries, such as estimates on special work, errors in shipping, complaints, etc. We cheerfully answer inquiries of any nature, **but if they are buried in the body of an order they are liable to be overlooked.**

NO. 22. RING SIZER FREE.

We will forward **free on application** our copyrighted card of Standard Ring Sizes. See photo of same in our Jewelry Division.

NO. 23. ERRORS IN INSCRIPTIONS.

We will not be responsible for errors in engraving inscriptions, etc., unless the order is written large and legibly. The safest plan is to write as **print,** writing each letter distinct and apart, especially for capitals. We charge for all engraving, the rule in all wholesale houses. For prices see the last page of this catalogue. No engraving orders solicited between December 15th and 24th owing to delay, unless especially instructed to **engrave regardless of delay.** The delay on engraving orders during the Christmas season is about one week.

NO. 24. PACKAGES FOR ENCLOSURE.

We will not be responsible for packages sent to us "to be packed with other goods," or any packages we are instructed to send to other houses for enclosure.

NO. 25. QUALITY OF GOLD.

Throughout this catalogue goods made in 14 Karat gold are so described. Gold jewelry, where exact fineness is not given, varies between 9 Karat and 14 Karat, while under no circumstances do we sell jewelry of low quality or inferior grade. It is well known that some concerns use an alloy of 4 Karat and 6 Karat and dispose of it as "solid gold," but the United States Assay Office has refused to recognize any "solid gold" unless excelling 8 Karat fine, meaning at least one-third pure gold and two-thirds alloy. Goods made of 8 Karat gold or over will wear a lifetime and impart good satisfaction. All gold will tarnish when sulphur, mercury, creosote of other chemicals permeate the system of the wearer, or when brought in contact with matches, India rubber, washing or scouring soaps and drugs and acids of any nature.

NO. 26. SPECIAL RULES FOR HOLIDAY ORDERS.

From December first to Christmas remember, when telegraphing, that all numbers in our catalogue are different. It is not necessary to give the page number. When in a hurry for goods **never order them shipped by mail during the holiday season, as the post office at that time is overcrowded with business, and packages are invariably delayed several days.** The refund of money for purchases made is not permitted, although we will gladly exchange anything that is not satisfactory. **Telegrams must be prepaid.**

NO. 27. NEW ACCOUNTS DURING THE HOLIDAYS.

Unavoidable delays are often caused during the Holiday Season in opening new accounts, due principally to the tardiness of references in replying to our letters of inquiry. It is therefore suggested that during the month of December cash in full should accompany the first orders, except from parties of unquestionable rating. This gives us time to investigate, and if references are satisfactory, later orders will be charged on open account.

NO. 28. OLD GOLD AND SILVER BOUGHT.

We buy old gold and silver in any form for cash, or exchange the same for merchandise, allowing in every instance the highest market value.

NO. 29. MYERS' BULLETIN.

Our bi-annual publication, "Myers' Bulletin and Bargain Circular," will always note any changes in prices or any particular new goods or special lots which we are desirous of disposing of at bargain considerations. If your name and address is correctly written on our mail list, you will be sure to receive the same regularly. If you should receive any letters from us in which your name or address is not properly given, please notify us at once in order that we may correct same on our mail list and insure your receiving all our circulars and catalogues regularly.

NO. 30. SALESROOMS, ETC.

Our principal salesrooms, conceded to be the finest in our line, are upon the second floors, while storage rooms for reserve stock, diamond cutting and mounting and gold jewelry factory are located in the upper portion of the same building.

NO. 31. MELOTON PIANOS ON TRIAL.

We are always prepared to ship the Meloton Piano to any locality in the United States on ten days' trial and approval, and should the instrument prove unsatisfactory for any reason whatsoever, we will pay freight charges for its return.

NO. 32. FOREIGN CORRESPONDENCE.

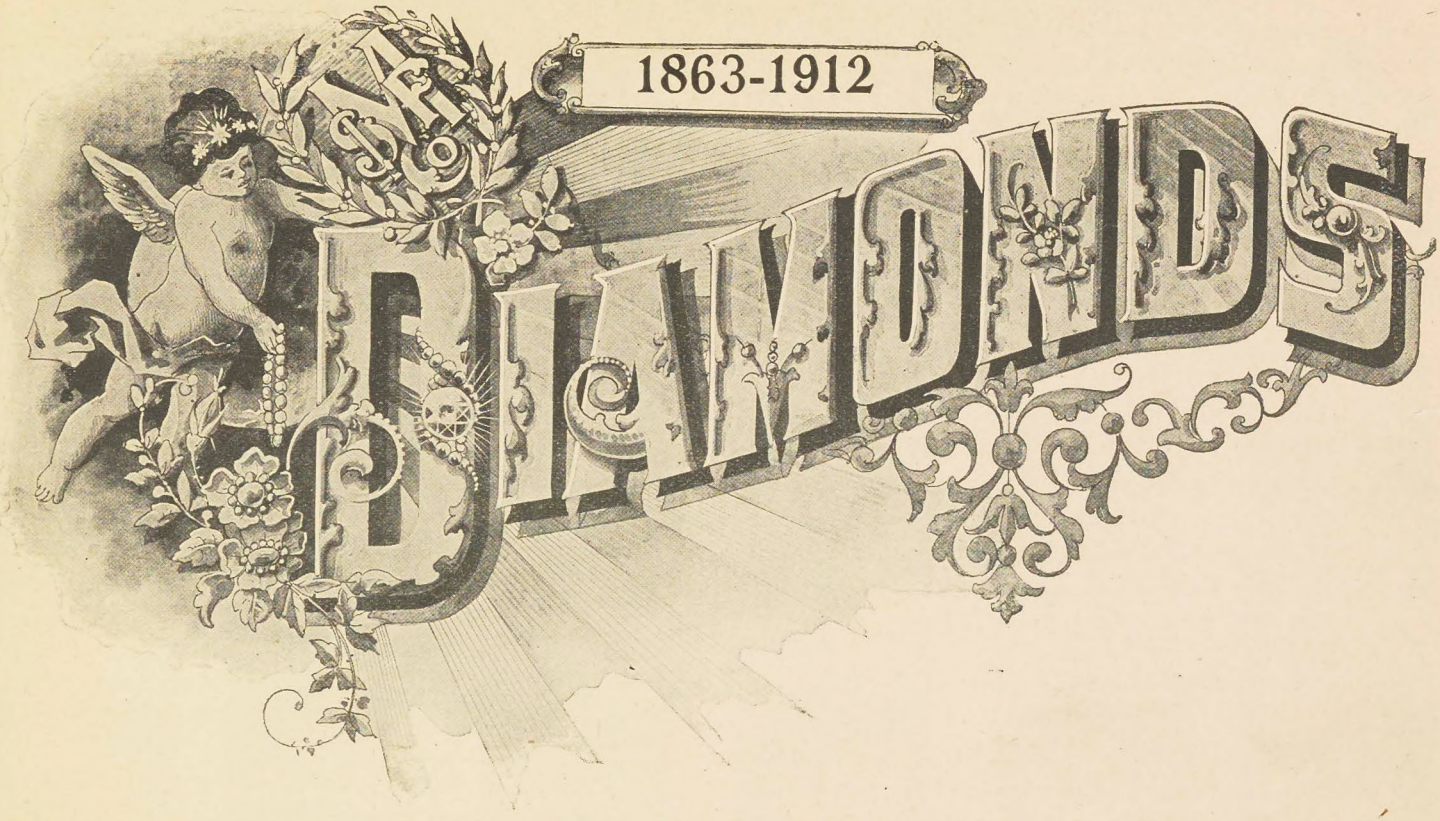

Orders and communications written in any language are promptly translated by our own officials and receive careful and accurate attention. There need to be no hesitation in addressing us in any language, since we are in constant communication with all parts of the world and such letters are of hourly recurrence to us.

NO. 33. POSTAGE STAMPS.

We accept postage stamps in any amount in payment for goods at their full value, providing the stamps are in good condition. In sending stamps to us place them between wax paper; if this is not done they are liable to stick together and thus become worthless to us.

NO. 34. DON'T CUT THIS CATALOGUE.

It is not necessary to cut or mutilate this catalogue when ordering. Simply mention number of page and number of article.

NEVER in the history of the diamond business have we found it so difficult to quote prices on scientific cut diamonds. For years the owners of diamond mines have been accumulating inferior and imperfect stones. In order to move this surplus they have constantly advanced prices on the better grades. We have boldly followed our policy that the best is none too good for our patrons, and, therefore, we ask our customers when ordering diamonds if they do not prove, by comparison, to be superior in quality and value, to return them at our expense. ¶ For exquisite beauty and great variety the exhibit of mounted diamonds and other precious stones to be found illustrated upon the following pages cannot be excelled either in Europe or America. ¶ The designs are of our own origin; they are made in our own shops—the diamonds, imported direct by ourselves, are cut on the premises—conditions which most assuredly enable us to quote lowest prices at all times, while lower prices than those quoted in these pages can mean but one thing—they must be of inferior quality.

We have repeatedly, in recent years, advised our customers to buy diamonds, if only as an investment, since we were well advised that their cost would be greatly advanced, and such has proven a marked fact, as at the present moment their cost has been increased nearly 100 per centum above that of a few years ago.

No article of ornament or merchandise can be compared intrinsically to the diamond, since no amount of display or service can ever in any manner affect its commercial value, and if at any time a new style of display should be desired, the diamonds can be reset to suit any fashion or taste, and at trifling expense.

The actual value of precious stones, being based upon so many divergent standards, embracing such a wide degree of peculiar characteristics, makes it absolutely essential for buyers to deal only with a house in whose experience, efficiency and standing the utmost confidence can be securely fixed.

Should you desire to examine any goods illustrated in this book, we will be pleased to SEND A SELECTION ON APPROVAL OR MEMORANDUM, with the privilege of examining and returning any or all.

We have no travelers on the road. We can, with our modest profit, undersell others. Will be glad to make quotations on inferior grades, if desired.

We sell all our goods on their true merits. Our pearls, emeralds, rubies and sapphires are all sold at lowest market prices, assuring our patrons that quality and price shall always be our watchword, and that we have no competition, grade for grade, and value for value.

S.F. MYERS CO. NEW YORK

DIAMONDS

We designate the different grades of diamonds upon the following pages by letters, as AA, A, B, C, D, by which the exact quality of stones may at once be determined, and which are as follows:

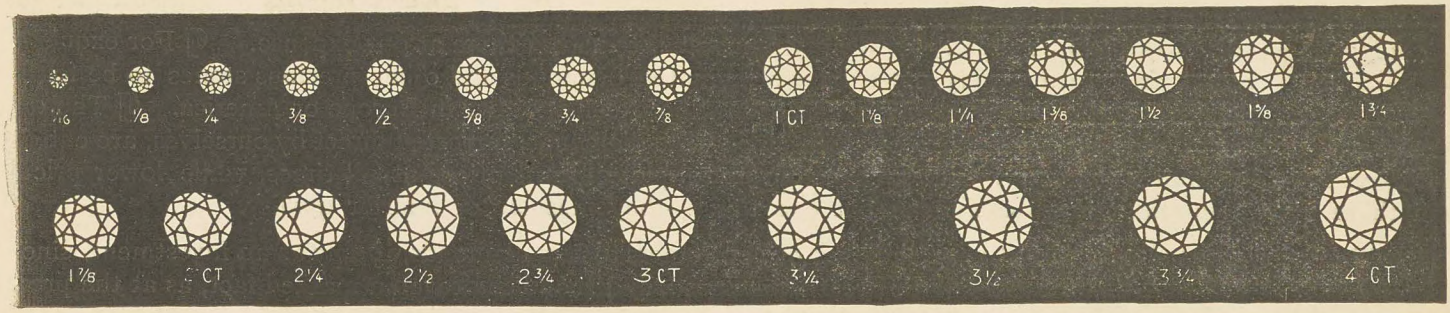

AA These letters indicate the highest grade of diamonds, and refer to carefully selected stones from the celebrated Jaegersfontein mines, conceded to produce the finest and most perfect diamonds known, and handled alone by the leading houses. These stones are genuine steel white, cut with absolute accuracy and are flawless.

A This letter indicates a particularly fine grade of stone, accurately cut, steel white, but with a trifling imperfection, which can hardly be distinguished by the naked eye, and very difficult to distinguish from the AA grade. This grade is often sold as being perfect and the imperfection is rarely, if ever, discovered.

B This letter indicates a high-grade stone known to the trade as "Finest White," being of excellent quality, accurately cut and without flaws, but not as white as the higher grades. This grade is freely handled and often quoted at extravagant prices.

C This letter indicates the same stone as the "Finest White," being accurately cut but slightly imperfect.

D This letter indicates a full cut diamond, commercial white and slightly imperfect.

We are always pleased to open accounts with customers furnishing us with satisfactory references.
We handle only high-grade, reliable goods, and if goods of a similar appearance are offered at a lower price it may be depended upon that they are of an inferior grade. The class of goods we handle cannot possibly be sold at a lower price than we quote.
The attention of our customers is directed to our line of sewing machines—strictly high-grade in quality, and in every respect fully equal to any sold at a far greater price. Every machine is guaranteed for ten years.

"MYERS" SEAMLESS GOLD WEDDING RINGS

The Best Finished and Most Reliable Rings Made. All So-Called "Seamless Rings" Without Stamp as Below are Imitations. Made Under Patent No. 545597 and Controlled by Us.

The patented process for the manufacture of Myers' "Victoria" Seamless Rings makes them beyond question the most desirable Wedding Rings ever produced. They are made from one piece of solid gold, placed under a heavy pressure and forced into proper shape and size; pressed into shape, a separate die being used for each size. The rings are endless, and cannot break or separate. This process of manufacture condenses the gold and admits of it taking the highest and most durable finish. No solder being used, brings the quality up plump. At no time can a streak show, as is seen in time on the regular soldered rings. This process is used by no other manufacturer of so-called Seamless Rings. There are rings on the market called "Seamless," which are made by the Casting process, the same as cast iron. But under the microscope, and often to the eye, they show what is known to the trade as small "pin-holes," and in many instances are more or less hollow, due to their manner of construction. As there is a sentiment attached to the Wedding Ring, the mere fact that it can be made several sizes larger, without cutting, by simply stretching and hammering it on ordinary jeweler's mandrel without fear of breaking, greatly enhances its value. This cannot be done on a soldered ring. Should the owner of a "Myers" Seamless Ring in later years require a larger size, no new gold need be added to the same. The name "Victoria" was adopted from the fact that Her Majesty, the Queen of England, wore a hand-made Seamless Ring, which has been enlarged without injury a number of times. Our patent process now permits the same style of a ring to be offered at a price that places it within the reach of all.

Myers' "Victoria" Seamless Wedding Rings are made in three different shapes. We illustrate exact cross-cuts of each shape, showing width and thickness, with name of each style underneath cut. We also show in full, Size Six in various weights. Same widths in larger sizes will weigh about one-half dwt. more for each additional size. Smaller sizes weigh about one-half dwt. less for each size. Exact Sizes Guaranteed, but the weights will some-times vary a trifle, from a fraction to a quarter of a dwt. We charge per actual dwt. and invoice accordingly.

We manufacture our Gold Rings in a modern electric power plant, located on the premises. Prompt satisfaction assured.

We furnish free facsimile of card, printed on both sides, of cardboard, with holes cut out where the white spaces show.

To ascertain exact size of ring desired place any ring that will fit the finger over the blank circle and send us the number printed in square. Inside of ring should fit outside of circle.

Myers' Self-Filling Fountain Pens

CAREFULLY MADE OF THE FINEST HARD RUBBER, NON-LEAKABLE, EASY FLOWING, BEST, SIMPLEST AND MOST RELIABLE FOUNTAIN PEN MADE.

As seen in the first engraving, a rubber band or sleeve, with a small opening, surrounds the holder. By turning this band a small metal bar is exposed. Press this bar with the finger and entirely submerge the point of the pen in ink. Then lift the finger from the metal bar and the pen instantly fills. A simpler, surer and cleaner device for the purpose cannot be conceived.

Illustrations are Exact Size. List Prices.

Crown Fountain Pens

The Dependable Pen. Always ready when you want to use it. LIST PRICES EACH

The Crown Fountain Pen has two feeders, one above, the other under the gold pen; the lower feed is adjustable, regulates the flow of ink. It takes the ink to the slit of the pen, from where it is conducted through the slit to the point. The upper feeder takes the ink to the point of the pen, thus the ink is supplied from both sides, making the flow very regular. No matter whether holder is fitted with flexible or stiff pen, long, short or stub nib, the flow of ink will be satisfactory.

The pen is made with two styles of top feeders, either rubber or gold top feed. (Lower feeder is always rubber.) Both styles work equally good.

Holders are made of the best Para hard rubber; gold pens of 14k gold with best selected hard iridium points. Gold pens fit into holder full size, not cut down at the heel. Pens are well made to last.

PLEASE OBSERVE THIS:—The illustrations in our catalogue are photographed direct from the article, and engraved by the most skillful artists. This method permits of no elaboration or exaggeration, but in every instance presents the design **ABSOLUTELY CORRECT**, and hence the merchant and his customer know what to expect and find, when the goods are received, that all anticipations have been fulfilled. Of course, the beauty of color, the brilliancy of the sparkling gem and the exquisite delicacy of expert finish and polish cannot enter into the printer's art, and must be left to the imagination, which, however, rarely does justice to the goods.

LIST PRICES EACH

All handles furnished with fine silk cord and tassels. We use only a fine grade of silk in our covers, which will wear and give entire satisfaction.

These umbrellas are made without springs, screws or levers of any kind and is so simple that it is impossible to get out of order. The steel pin is riveted through the steel rod, which makes the most secure interchangeable handle on the market. The steel burr on the base fits into this pin securely, making the most rigid complete umbrella to be had. All that is necessary to detach handle is to turn the knurled collar on the burr until it drops in position, when the handle can be detached. You don't have to pry the ribs apart and break your finger nails pressing springs to release the handle, besides the burr and collar are well finished and much better appearing than the spring detachable feature. You can use as many handles as desired for the same umbrella. The instantaneous detachable feature enables you to remove the handle, preventing the loss of the umbrella.

"ALHAMBRA" PATTERN.—French Gray Handles. Illustrations are One-Half of Actual Size, Articles being Twice the Length and Width Shown.

The S. F. Myers Co. Special Make of Standard Silver Plated Ware.

These goods are made of the highest grade nickel-silver base metal, which is almost as white as silver itself, and every piece is shaped by machinery, thus insuring exact uniformity.

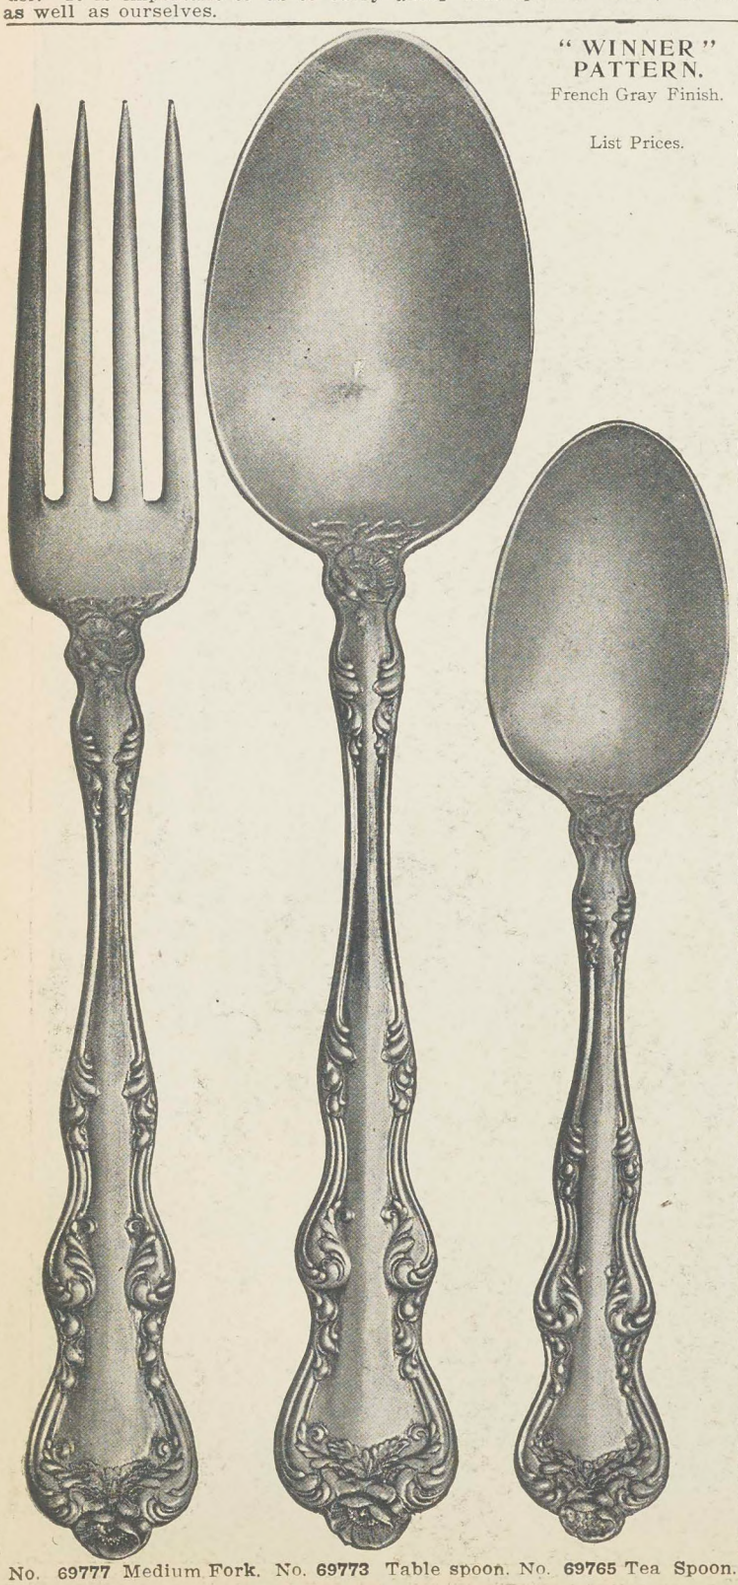

By using spring tempered shanks the weight of the metal is evenly distributed, giving the article strength where required without a heavy and clumsy appearance. These goods are plated with pure silver on above metal, and we guarantee them to contain 25 per cent. more silver than the regular standard plate, and to strip as follows:

On our "XIV" plate—Tea spoons, 50 dwts. of pure silver to gross.
On our "XIV" plate—Table spoons, 100 dwts. of pure silver to gross.
On our "XIV" plate—dessert forks, 100 dwts. of pure silver to gross.
And other pieces in proportion.
On our "XIV" plate—Dessert spoons, 75 dwts. of pure silver to gross.
On our "XIV" plate—Medium forks, 100 dwts. of pure silver to gross.

By our method the silver is applied so that the parts most subject to wear receive the heaviest plating.

The "Winner" pattern is French gray finish, and gilt blades; bowls and tines are rose gold instead of bright gold.

This brand is all BURNISHED, which hardens the silver, and makes the goods wear longer than when finished in the ordinary manner. It is important to us to carry under this special brand, an article that we know will give perfect satisfaction to our customers as well as ourselves.

COMMUNITY SILVER

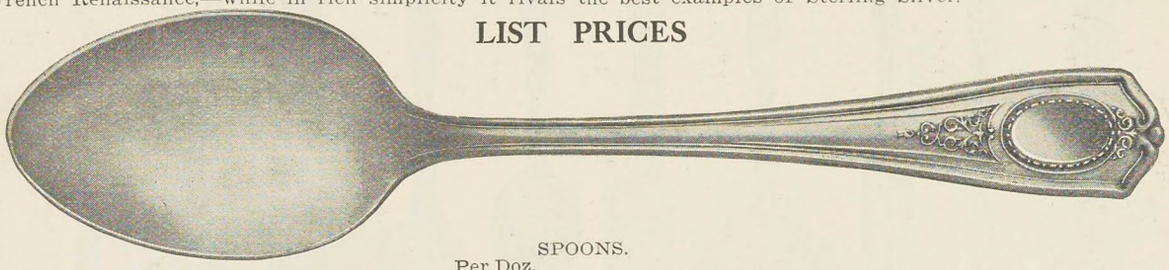

It has always been the special ambition of the Oneida Community to make the very best in whatever line of manufacture they were engaged. That was the basic idea of COMMUNITY SILVER ten years ago; that is the real secret of its present success.

But just as the modern battleship is constantly improving its armor plate, no matter how perfect it may have seemed, COMMUNITY SILVER—the most modern plated ware—is constantly seeking to better the armoring of its own silver plate.

The latest wear-resisting improvement in Community Silver is so striking that it can be easily detected by any dealer. It consists of a circular disc of pure silver **overlaid** at the wearing points of every Community Silver Spoon. This special wearing point protection is in addition to Community Silver's superbly heavy general plate, and makes Community Silver practically wear impregnable, so impregnable in fact, that we now **guarantee it for 50 years.**

Shown below is the Louis XVI design. In exquisite grace and delicacy of line it harmonizes perfectly with the period it represents, —the later French Renaissance,—while in rich simplicity it rivals the best examples of Sterling Silver.

RELIANCE PLATE

The same quality improvement now found in Community Silver has also been applied to Reliance Plate. It has been given the same heavy wearing-point OVERLAY as Community Silver, and the general plate over the entire spoon has been thickened. In this way the wearing quality of RELIANCE PLATE has been increased to such an extent that it is now guaranteed for 25 years.

Embossed in strong relief, a half circle of roses relieves the plain shield of the new La Rose pattern, and gives a beautiful finish to this design.

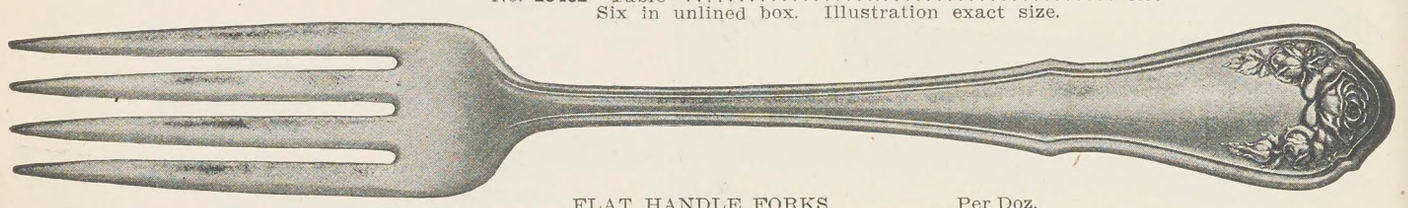

The La Rose is made in absolutely reliable plate, and is guaranteed for 25 years.

Alcohol Gas Stove Chafing Dishes, Nickel Plated or Solid Copper

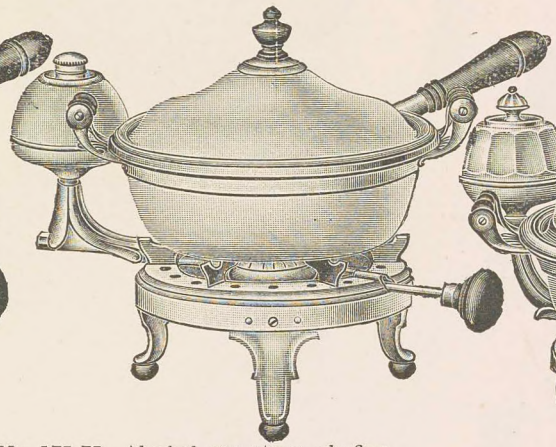

S.F. MYERS CO. NEW YORK.

Non-heating side handles, extra pan for hot water, double tin lined throughout. These stoves manufacture their own gas and burn a blue flame like the ordinary gas range burner. The alcohol is not burned direct as in the usual chafing dish lamp, but is vaporized and mixed with air, which produces a flame powerful enough for any cooking purpose. It has three times the heating power of the regular chafing dish lamp, yet regulates to a simmering flame at a touch. Is sootless and odorless. Alcohol will not evaporate when not in use.

Chafing Dishes with New "Alcolite" Wick Feed Burner Gas Stoves

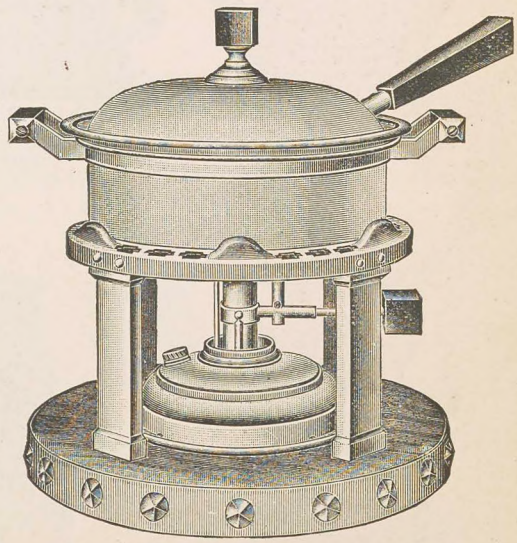

Operates on same principle as those with tank. Burns denatured alcohol gas mixed with air, which produces an intensely hot blue flame, powerful enough for any cooking purpose. Will burn full flame for one and one-half hours and can be regulated to any size flame. The invisible wick does not come in contact with the flame, so requires no renewing. The alcohol will not evaporate when lamp is not in use. This is a good feature, as it saves filling lamp each time it is needed. The only chafing dish stand that can be used as a stove for other cooking utensils without the use of hangers or other additional parts.

WESTMINSTER CHIME HALL CLOCKS AT POPULAR PRICES.

Genuine Mahogany Case; Polished Movement; Westminster Chimes; Ornamental 12-inch Gilt Dial, with Silver Finish Dial Rim; A Fine Mahogany Hall Clock at a Low Price.

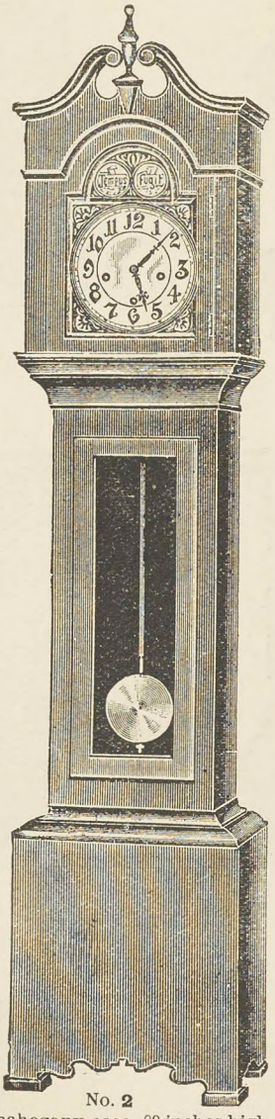

DESCRIPTION.

These hall clocks are furnished with a superior finished 8-day spring movement, striking sections of the melody at each quarter and the full Westminster Chime, followed by striking the hours, the same as the famous London Chimes. We draw especial attention to the strike of these movements. The gongs are **not spiral**, and the sound is sonorous yet mellow and soft.

When these clocks are fitted with **long tubular chimes**, a separate striking attachment is used. These clocks reproduce the sound of the famous

"WESTMINSTER CHIMES."

OPTICAL DEPARTMENT

TO THE TRADE:

Optical Goods such as we display are in every way protected by the makers, as well as our guarantee, as to quality. We display only such articles as are staple and in popular demand.

Towards the relief of the large portion of our country's population that is suffering from deafness many inventions have been extended. We display a few of the best in their order beginning with slight cases of deafness hearing horn, etc., and ending with MYERS' EAR-PHONE.

Each $17.34

MYERS' EAR-PHONES.

Myers' Ear-Phones are new patented electric instruments for aiding deafness of any degree. They are small, light and inconspicuous; there is nothing to insert in the ear (a dangerous practice) or hold in the hand, in great contrast to the clumsy and conspicuous horns, tubes and the like. Nor does the speaker have to hold or talk into the instrument.

The No. 1 type of Ear-Phone (illustrated above as in use) is the most convenient form, as each of the three parts are separate, allowing the battery to be concealed anywhere in the clothing or in a chatelaine bag, and the transmitter to be concealed under the waist or coat, if desired.

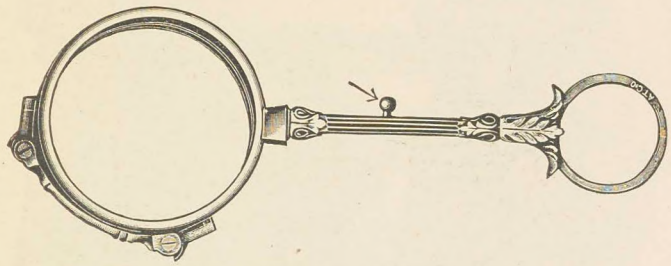

The construction of the "Sonor" is based on new and scientific principles. The concentration of sound waves has been so minutely calculated that the hearing is clear, agreeable and easy. The "Sonor" transfers the vibration directly to the hearing organs.

When deafness is due to old age the "Sonor" acts with great efficiency. For conversation, or use at the theater, concert, etc., it fully meets the wish so often expressed by the deaf, "to hear and distinguish all the voices, all the sounds, all the noises."

BH

BAUSCH & LOMB HANDLE ARM MICROSCOPE

The BH microscope combines those features which make an instrument most useful for student work where low and medium powers are required. It has our regular diagonal rack and pinion coarse adjustment, standard micrometer screw fine adjustment, joint for inclination and draw tube with society screw. The stage is oxidized metal and is provided with revolving diaphragm with apertures of various diameters. Plane and concave mirrors mounted on an adjustable arm give control of the illumination.

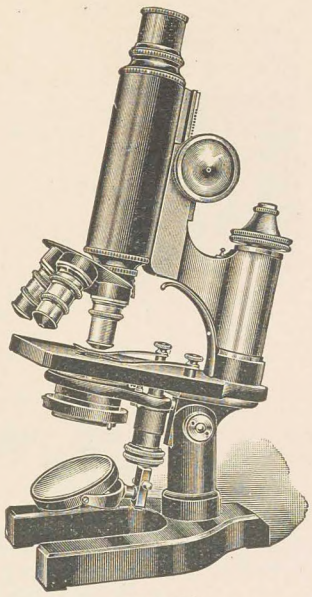

This instrument is very durably made and neatly finished, in addition its simplicity of construction makes it desirable for young students. For these reasons it has found its way into a large number of high school and college laboratories.

Furnished in polished cherry case with handle and lock.

The Mazda Lamp

Everyone is familiar with the Tungsten Lamp and its tremendous improvement over the old carbon filament lamp used in connection with incandescent lighting for years. Tungsten is the name of the metal of which the filament is made.

Mazda is the trade name adopted to represent the combined improvements made by the technical specialists of the majority of the important manufacturers of Tungsten filaments. It stands for the highest quality in metal filament lamps and gives a remarkably bright light estimated at

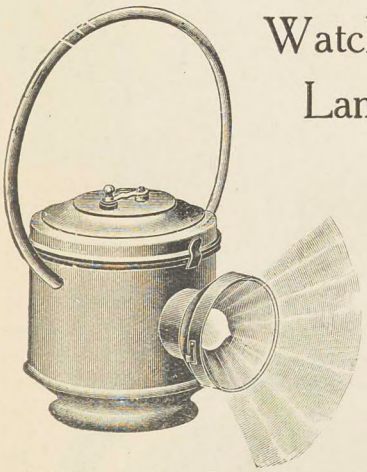

500% MORE CANDLE POWER

than the carbon lamp. In addition it greatly increases the service of the battery; it gives a brilliant light.

This lamp is especially adapted for Flash Lights which, being designed to be carried about, must be kept small in size. Owing to the wonderfully bright light thrown out by the Mazda bulb even the smallest vest pocket flashlight illuminates in a manner almost incredible.

Care should be taken to see that the bulbs are firmly but carefully and gently screwed in to insure a good contact.

Buy your fever thermometer from this display package. Always look for it. Insist upon the name "Tycos."

"TYCOS" ACCURACY.

Naturally, where tenths of a degree are of the greatest importance, as in clinical observations, the accuracy of the thermometer is vital. Without accuracy all else is useless, and one is much better off without a thermometer at all. The protection of the public lies in the copyrighted name "Tycos," which is always found on every genuine "Tycos" instrument and which is to all thermometers as "sterling" is to silver.

MUSICAL DEPARTMENT

WHILE we are the exclusive selling agents for the MELOTON PIANO CO., we wish to say that there is nothing in Musical Merchandise we cannot supply, and at all times insure highest quality and lowest prices. Not only are we extensive direct importers, but many of the goods illustrated here are of our own manufacture, or entirely under our control. We invite inquiries and are prepared to supply any want that cannot be found elsewhere.

Very respectfully,

S. F. MYERS CO.

Dear Sirs: I am greatly pleased with the "Colonial Grand" piano that I bought from you. Yours resy., CHARLES THOMPSON.

Aberdeen, S. Dak., March 26th, 1909.

S. F. MYERS CO.

Dear Sirs: The "Meloton" piano reached me in perfect order, and am highly pleased with its exquisite tone and general beauty.

Yours truly, P. C. WATTERS.

Veedersburg, Ind., March 24th, 1909.

S. F. MYERS CO.

My Dear Sirs: I received the Meloton piano in perfect condition and am delighted.

It has one of the most artistic cases I have ever seen, and the tone is beautiful. Very truly yours, H. G. NEWTON.

S. F. MYERS CO. Stanleyton, Va., March 21st, 1909.

Dear Sirs: I am much pleased with the great beauty and delicious rich tone of the Meloton piano bought from you.

It has been highly praised by all who have seen and tried it.

Yours truly, (Rev.) J. R. BROWN.

Harrisburg, Penn., March 31st, 1909.

S. F. MYERS CO.

Gentlemen: The "Meloton" bought from you has now received ample trial at many hands, and is universally conceded to be by far the best toned piano in my entire class of sixty pupils.

Respectfully,

JACOB B. NYE,
Teacher of Music.

Harrisburg, Penn., May 25th, 1909.

S. F. MYERS CO.

Gentlemen: I wish to supplement my letter of March 31st, by saying that several of my most advanced pupils desire to secure one of your "Meloton" pianos, and would like to know if you would accept the instruments of other makes they now have in part payment for one of your "Melotons."

The "Meloton" has proven so much superior to all others used in my class that most any sacrifice would be made to secure your splendid instrument. Please reply promptly, and oblige,

Yours resy.,

JACOB B. NYE,
Teacher of Music.

Warriors Mark, Penn., Jan. 12, 1909.

S. F. MYERS CO.

Dear Sirs: We have constantly used the "Meloton" piano for two years, and it has given the best satisfaction.

Its tone is rich and mellow, and although it has never been tuned, it is to-day absolutely perfect in tune and tone.

It is all you represent, and I know it has cost me much less money than the same high quality can be bought elsewhere.

Yours very truly, S. P. GRAY.

First State Bank of Roscoe,

S. F. MYERS CO. Roscoe, So. Dakota, Feb. 3rd, '09.

Gentlemen: The "Cabinet Grand" I bought from you is a splendid instrument.

Its tone is fine, smooth and powerful, and has a wonderful carrying power.

To say it is a beauty in tone, finish and workmanship does not adequately set forth the high merits of the piano.

For square-dealing, I can cheerfully recommend your business methods.

Yours resy., HERMAN S. BARCHINGER.

Campbell & Coller, Practical Plumbers and Tinners,

S. F. MYERS CO. Bowling Green, Ohio, May 8, 1908.

Gentlemen: I wish to say that after five years use, I am more than pleased, and the longer we use the Meloton, the better we like it. The tone and action is very fine, and is pronounced so by all who have played on it. FRED H. COLLER, care of Campbell & Coller.

Jas. Pritchard & Son, Hardware, Titusville, Fla., March 1, 1908.

S. F. MYERS CO., New York.

Dear Sirs: The Meloton Piano we ordered from you last year is a beauty and we can't say enough in praise of it. It has been admired by all who have played upon it. Yours truly, JAS. PRITCHARD & SON.

W. A. Douglass, Gen. Mdse., Highland, W. Va., August 18, 1908.

S. F. MYERS CO., New York.

Gentlemen: The Meloton Piano you sent me a year ago commands the unqualified praise of the best musicians of our State, and I take great pleasure in recommending it to those in want of a good piano.

Respectfully, W. A. DOUGLASS.

Pennsylvania Railroad Company, Phila., Pa., May 16th, 1907.

S. F. MYERS CO.

Dear Sirs: We have our Meloton Piano a year now, and gave it a thorough test, and found it as you represented it in every respect. And in tone find it equal to its name ("Meloton"). It can be inspected by any one who wishes to call to see it. Respectfully yours, J. H. ROLAND.

No. 743 DeKalb St., W. Phila., Pa.

Shenandoah, Va., March 29, 1906.

S. F. MYERS CO., New York.

Gentlemen: Yours of the 30th inst. received inquiring about the Meloton Piano purchased of you about one year ago, and in reply will say that it is giving the best satisfaction, and I am well pleased with it; it has been pronounced by musicians to be a first class instrument; it is in first class tune and has not been tuned since I received it.

Yours very truly, DR. W. B. SPRINKEL.

J. A. Late, Music Dealer, Valley Springs, Cal., August 3, 1905.

S. F. MYERS CO.

Gentlemen: The Meloton Piano, which I ordered from you in October, 1900, has given such good satisfaction that I expect to do quite an order business in the near future. It is by far the best piano in this vicinity.

Yours truly, J. A. LATE.

D. A. Poole, Gen. Mdse., Kremis, Pa., March 7th, 1905.

S. F. MYERS CO., New York.

I take pleasure in recommending the Meloton Piano as a first class instrument in every respect, and can say we are very much pleased with the one we have. My opinion is based on what I have been told by competent and reliable musicians, who have tested it and pronounced it as above described. If I had another to buy I certainly would get the same. I am confident I saved at least One Hundred Dollars.

Yours truly, D. A. POOLE, Kremis, Pa.

Chas. W. Spayd, M.D., Pharmacist, Wilkes-Barre, Pa., Oct. 14, 1905.

S. F. MYERS CO.

Gentlemen: We are greatly delighted with the Meloton, with its sweetness, and distinct tone, which is pleasing and a well sustained vibration, also volume. Its tone is a pleasure to the player. In every respect it is a grand Instrument. Persons said "How could you risk buying a Piano without seeing it first?" I said the reputation of the House warranted it. I have nothing but the highest praise for the Meloton.

Yours respectfully, C. W. SPAYD.

St. Louis and San Francisco Railroad Company,
St. Louis, Mo., July 18th, 1908.

S. F. MYERS COMPANY,

Gentlemen: Answering your inquiry of the 15th inst. as to the condition of the Meloton Grand Piano purchased from you in 1898:

After ten years' use, this Piano still gives most excellent satisfaction. It has held its own well and is a better tone now than when received.

Yours very truly, H. C. JACQUES.

S. L. Hagy, Watchmaker and Jeweler, Pataskala, Ohio, Nov. 15, 1908.

S. F. MYERS & CO., New York City.

Gentlemen: After 5 years' constant use I write you concerning the Meloton Orchestral Grand Piano which I bought of you. You know when I first wrote you concerning this piano I stated that unless it possessed that liquid singing tone I would return it to you at once.

Previous to ordering it my wife and I had examined at least 25 different makes of pianos, among the highest grades made in America, and felt doubtful as to whether the Meloton would fill the requirements at all.

I am more than pleased to say at this time, after this 5 years' use, I could not have been better suited if I, myself, had had long years of experience in piano making and had constructed this one myself. In all that I have ever heard, I have never found one with this brilliant treble, deep sonorous bass, and well balanced middle register combined. Tone! Superb! That is the only fitting descriptive word. Could I not get another I would not think of parting with this one for four times its cost.

Sincerely yours, S. L. HAGY.

Photographic copies of the above, confirming former letters and many others, will be sent on application.

CONSTRUCTION. Every detail of construction is most carefully executed at the hands of skilled workmen, while the woods used—mahogany, florid walnut and oak—are judiciously selected and thoroughly kiln dried, thus guaranteeing the cases against the evil effects of water, dampness and all climatic dangers.

THE BASIS of the piano is the strain bearing parts of the case, and in the "MELOTON" these parts are made of perfectly seasoned material and solidly united upon the most accurate scientific principles.

THE HARMONIC MUFFLER PEDAL, controlled by the middle pedal, is a valuable addition to the piano. At the will of the performer it reduces the volume of tone to the softest pianissimo, permitting practice without annoyance to others, and by saving wear and tear of the hammer felts prolongs the life of the piano.

THE FACE of the "MELOTON" frame is made of selected rock maple, to which the sounding board is firmly fixed, thus uniting two valuable extremes in hard and plastic wood, a principle conceded by experts to be exceedingly effective.

A High Class Instrument at a Moderate Price

THE PIN BLOCK, of heavy cross-banded veneers of rock-maple, holds the pins as in a vise—one reason why the "MELOTON" stands so well in tune.

THE PLATE in the "MELOTON" is cast in an improved pattern, and modeled on the principle of the Grand. This plate reaches the full depth of the piano from top to bottom, and is reinforced with extra heavy bars and braces, arranged to secure the greatest possible strength in resisting the enormous, constant strain of the strings, and thus give to the "MELOTON" in upright form the best qualities of the Grand piano.

No. 502. Corinthian

This very elaborate case has a distinctive individuality of its own. It represents the very highest point of architectural harmony. It is double veneered (cross-banded); lined throughout with bird's-eye maple. Panel hand-carved in artistic design. Trusses and pilasters hand-carved; continuous hinges. Mahogany, walnut or quartered-oak, highly polished.

SIZE—Height, 4 feet 9 inches; width, 5 feet 4 inches; depth, 2 feet 2½ inches.

SCALE—Seven and one-third octaves; overstrung bass; three strings in unison throughout; full composite bell metal bronzed plate; tuning pins bushed; three pedals, muffler for center pedal.

ACTION AND KEYS—High grade double repeating action; genuine imported bushing cloth; heavy superior quality felt hammers; genuine high grade ivory keys, with ebony sharps.

BACK—Extra heavy hardwood flush back; solid rock maple pin block, reinforced by two ⅛-inch and one ¼-inch quartered maple veneers, cross-banded.

SOUNDING BOARD—Thoroughly seasoned selected spruce; bridges, solid rock maple.

All outside trimmings used on this piano are nickel plated.

MAGNIFICENT INSTRUMENTS AT A MODERATE PRICE. LIST PRICES.

THE SCALE, the fundament of tone, embraces many features original with the "MELOTON," and is designed to produce the utmost volume. The three-stringed unison throughout middle and treble registers, with the greatest possible length of string, is the medium through which this result is obtained. The "MELOTON" scale, emulated by pianomakers universally, is conceded to be the scale par excellence.

THE SOUNDING BOARD, the accurate construction of which is of such vital importance, is a significant feature in the "MELOTON" Piano, and is the result of years of practical research. It is of unusually large dimensions, made of the choicest balsam-fir—the most resonant of woods—and imparts a "color" and intensity to the tone quite foreign to pianos of the ordinary type.

THE FRAME. To resist the tremendous strain of the scale, the iron frame of the "MELOTON" Piano is specially designed —full-flanged, reinforced and (were it necessary) capable of withstanding double the pressure to which it is subjected. The wooden frame, the foundation of the piano, so to speak, and the very backbone of the instrument, is made of the best well-seasoned woods, and like the iron frame, is of an improved extra massive pattern of more than ordinary strength.

The Meloton Piano.

MAGNIFICENT INSTRUMENTS OF HIGHEST GRADE AT MODERATE PRICES. LIST PRICES.

THE TONE—that crucial test of the pianomaker's skill—is susceptible of every delicate shade of expression, the direct result of acoustically perfect construction. A deep, sonorous bass, a brilliant treble, a resonant middle register, and throughout all a mellowness unequaled—whence comes the name "MELOTON," which connoisseurs declare most fitting.

THE ACTION is patterned after the double lever grand repeating action, avowedly the most perfect type, with an improved nickel action-rail and tubular hammer-rail that add great strength to the construction. The hammers, of best American felt, are of the largest size, and the action bearings are scientifically devised to withstand atmospherical changes and obviate the possible sticking of the keys in damp weather. The careful assembling of the parts, precise as the adjustment of a watch movement, is the secret of the firm, yet elastic, touch of the "MELOTON" Piano. It combines both power and delicacy with perfect accuracy and repetition.

PLAYER PIANOS, LIST PRICES

The player action used in these player pianos is manufactured in our own factory. It has many points to commend it—many excellences peculiar to itself and not shared in by any of its so-called competitors. Its simplicity of construction is one of these points—its easy access to all parts, its perfect means of regulation. The player action can be regulated without removing any part of the mechanism; the repetition is perfect, the bellows sensitive, and a divided action makes it possible to subdue the bass or treble for emphasizing the melody.

G. DUERER VIOLINS, MADE BY WILHELM DUERER, Eisleben, Saxony.

Since the first introduction of these superb instruments to the American trade they have been classed as the finest among the modern high grade makes. Their superior merit at once created a demand and the sales have been phenomenal. In model, finish and workmanship there is absolute perfection, while in the purity of tone and perfect acoustic qualities they are equal, if they do not surpass the instruments of any modern maker in Europe or America. The various models are close copies of the original Italian makers, which together with the beautiful transparent varnish, the rich graining of the wood used in the backs and the artistic finish gives a complete elegance to these violins which it is difficult to describe.

ACRIBELLA AND REX SILK VIOLIN STRINGS.

The Rex silk violin strings are the result of the untiring efforts on the part of the manufacturer to produce a silk string to not only resemble a gut string, but one that will stand any degree of heat or dampness.

The Acribella and Rex strings are superior to the gut string for summer use on this account. The tone of these strings is as good, if not better, than Italian gut.

We offer them at exceptionally low prices, as we have obtained the agency for the United States. A trial will convince the most exacting.

CLIMAX DISC TALKING MACHINES

S.F. MYERS CO. NEW YORK.

These are strictly high-grade machines, and are made for us by one of the best manufacturers and are especially adapted to the requirements of the jewelry trade.

There is no talking machine on the market to compare with these machines at the price, and if they are put to the test you will need no argument. You can prove their tone qualities hearing them and you can prove their mechanical perfection by examining them, part by part.

These machines play any disc record made, and play them as well as they can be played.

CLIMAX DISC TALKING MACHINES.

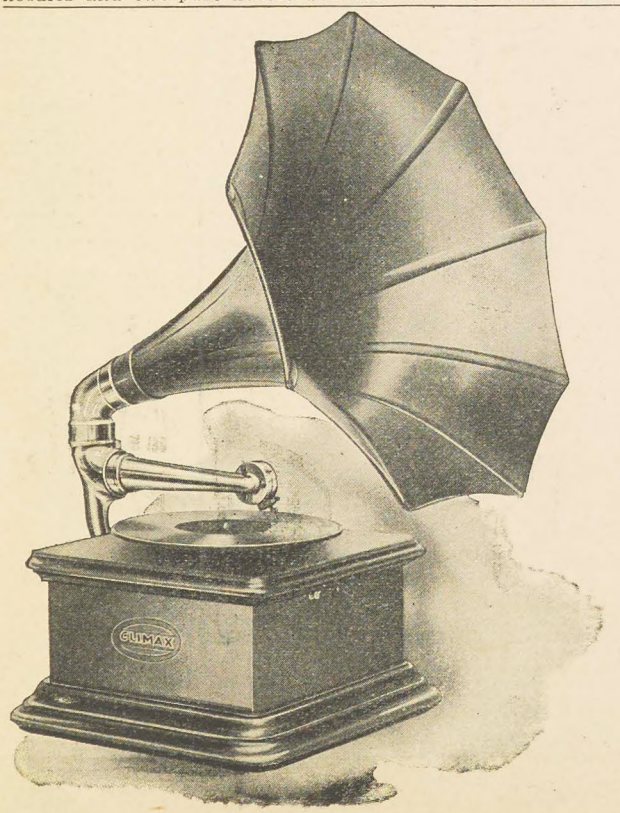

No. **75384** Price **$63.82**

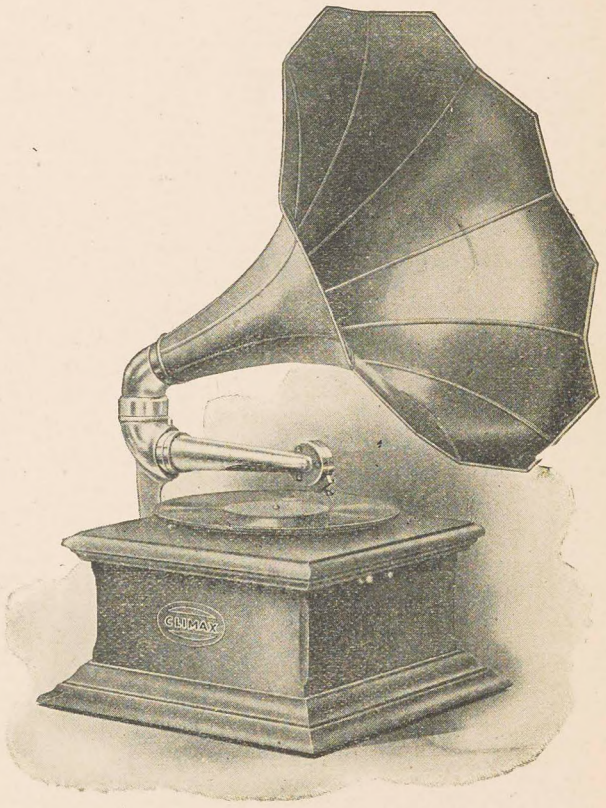

Large finely finished selected oak cabinet, 12 inches at base, height 7½ inches, 10-inch turn table, covered with red felt; double spring motor, simple in construction, silent, powerful and as true as a watch; runs three records with one winding and can be wound while playing. Tapering tone arm and analyzing reproducer, which is noted for its mellowness, resonance, sweetness and purity of tone. Horn is finished in black and gold, 17½ inches in length, with 19½-inch bell. Tone arm japanned. Swing arm and horn elbow finely nickel plated. Furnished complete with 200 needles and two-part box for new and used needles.

CLIMAX DISC TALKING MACHINES.

HOW TO ORDER

Order by number and not by name of selection. Give definite instructions as to method of shipment, whether by EXPRESS or FREIGHT. Otherwise we will use our own judgment. It is not safe to ship disc records by mail, as they almost invariably reach their destination cracked or broken.

The nature of the record-making business is such that it is impossible to keep constantly on hand a full stock of every record listed. We therefore suggest that customers give a first and second choice, in which case we will substitute from the second list any records of which we happen to be short in the first list. If no second choice is given we will fill the order, substituting records of our own choice for those which are temporarily out of stock. UNLESS WE ARE DEFINITELY INSTRUCTED NOT TO DO SO.

Our new store is universally conceded to be the finest and most modern establishment of its kind in existence. Visitors are cordially welcomed, while an examination of the full sample lines in our various departments will not only prove interesting, but conclusively show that we are leaders. No concern of our kind in the world carries such a large, valuable and varied display.

Excellent Values in High Grade Sewing Machines

On this and the following page we offer a line of strictly dependable family sewing machines at remarkably reasonable prices. We wish to emphasize the fact that, although prices are low, the machines are reliable and durable and will give excellent service. This is particularly true of our two best grades, the MAIDEN LANE ROTARY and the MAIDEN LANE MODEL "A," which machines we have no hesitation in guaranteeing to be fully equal to any sewing machine on the market regardless of its price and reputation.

The Ideal High Class Family Sewing Machine

"The Maiden Lane Rotary"

Number 75387 - - Price, $82.85

The speed and easy running and perfect stitching qualities of this machine make it ideal for dressmakers and family use. It is the only rotary machine made having an automatic tension that adjusts itself automatically to all classes of goods—from the lightest and flimsiest silks down to the heaviest and most bulky woolens.

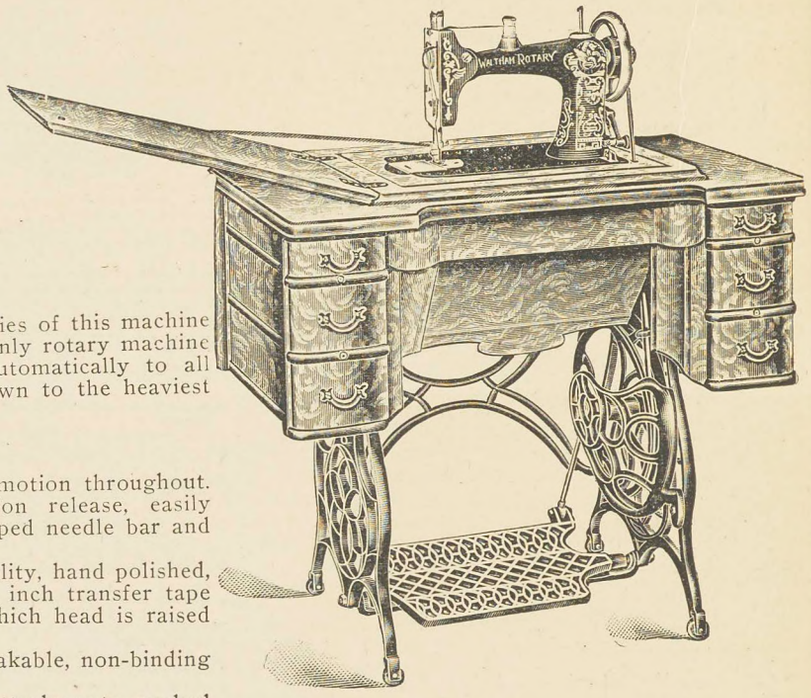

SPECIFICATIONS.

High arm, double lock stitch sewing head with rotary motion throughout. Equipped with automatic tension and automatic tension release, easily removed bobbin case, automatic stitch regulator, steel capped needle bar and double width, steel forged feed.

The case is colonial design and is built of the finest quality, hand polished, quarter-sawed oak. It has six side drawers and eighteen inch transfer tape measure on table and cable lifting device by means of which head is raised automatically to place.

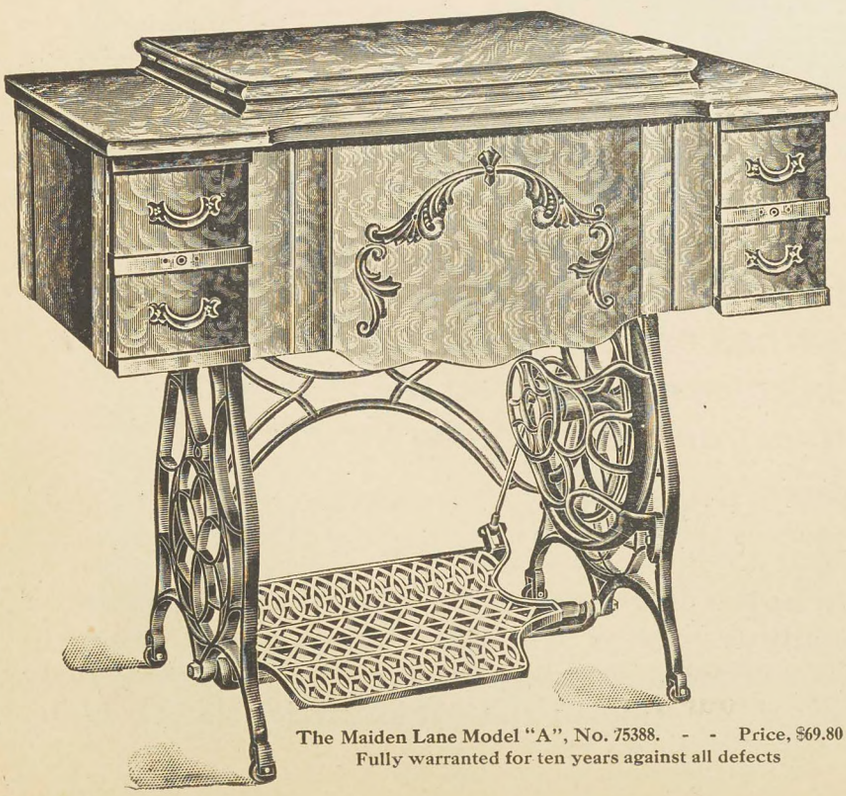

Improved, easy running, ball bearing stand with non-breakable, non-binding steel pitman and automatic belt replacer.

A complete set of the finest quality nickel plated steel attachments, packed in a substantial, velvet lined, black enameled box, is furnished with each machine free of charge.

The Maiden Lane Rotary No. 75387. - - - Price, $82 85
Fully warranted for ten years against all defects

This attractive design, high grade, vibrating, family sewing machine is splendid value at our special price.

The Maiden Lane Model "A", No. 75388. - - Price, $69.80
Fully warranted for ten years against all defects

THE MAIDEN LANE MODEL "A"

Number 75388 - Price, $69.80

SPECIFICATIONS.

Colonial design, hand polished, quarter-sawed oak case equipped with flexible steel cable automatic lifting device that raises sewing head to place. It has four side drawers that are encased in solid panels and has an eighteen inch transfer tape measure on front of table.

High arm, double lock stitch sewing head with many improvements, including self-regulating tension, automatic stitch regulator and automatic bobbin winder. The working parts are made of the best quality steel and will last a lifetime.

Ribbon design, easy running, ball bearing stand well finished in black enamel. Has non-binding steel pitman and automatic belt replacer. Accompanied by a substantial and complete set of nickel plated steel attachments packed in a durable, velvet lined, metal box.

Thoroughly Dependable and Serviceable Sewing Machines at Very Low Prices

S.F. MYERS CO. NEW YORK.

You will be interested to know that a great many sewing machines sold by agents at exorbitant prices—say from $65.00 to $90.00—are in no respect better than this WALTHAM MODEL "B." It is a well built, well finished, well equipped sewing machine that will satisfactorily fulfill the very demands imposed upon it by the sewing of the average family.

The Best Medium Priced Sewing Machine To Be Had

The Waltham Model "B"

No. 75389 Price $48.76

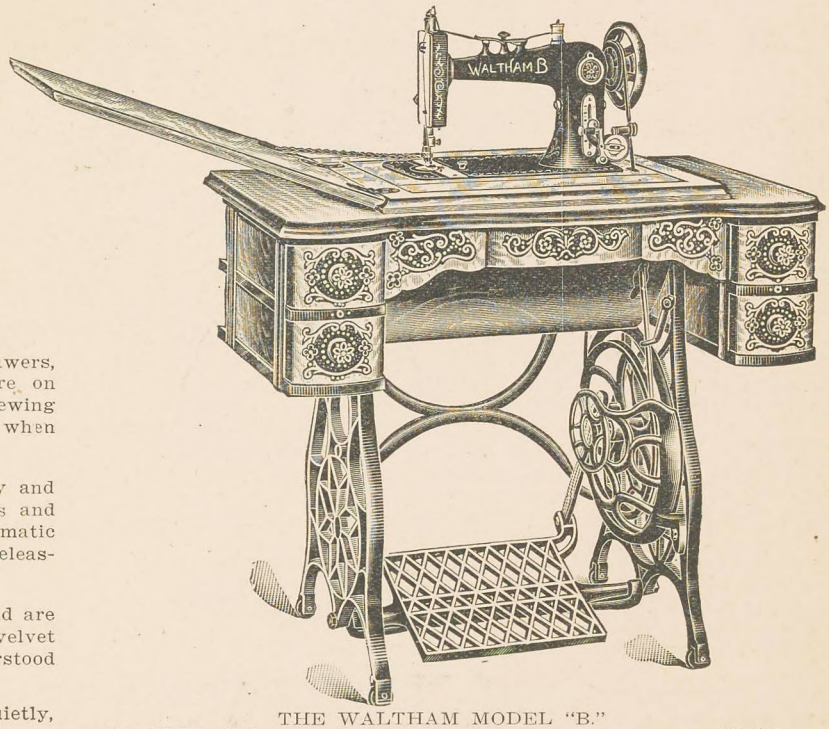

Specifications:

Embossed golden oak drop cabinet with four side drawers, handy center drawer, eighteen-inch transfer tape measure on table and steel chain and lever-lifting device that raises sewing head automatically to position from case in which it rests when machine is not being used.

High arm, double lock stitch sewing head, runs easily and quietly. Is equipped with many new labor-saving devices and improvements, including automatic stitch regulator, automatic bobbin winder, self-threading shuttle and automatic gear releasing device.

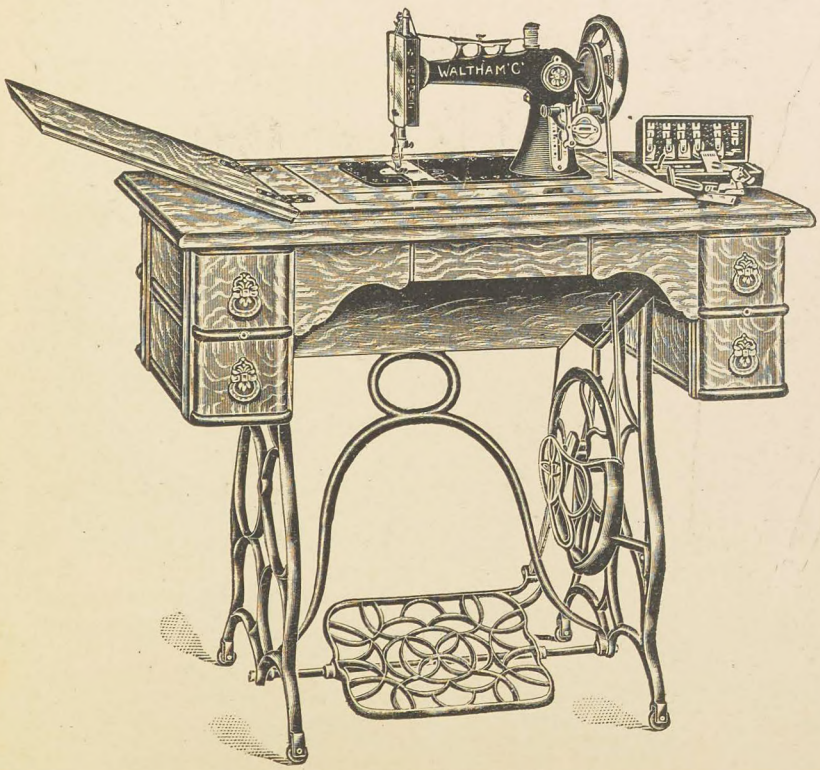

The attachments, free of charge, are made of steel and are beautifully nickel plated. They are packed in a durable, velvet lined metal box, and are accompanied by an easily understood book of instructions.

The stand is ball bearing and operates easily and quietly, and is equipped with an automatic belt replacer.

THE WALTHAM MODEL "B."
No. 75389 Price $48.76

The Maker's Binding Ten Year Warranty backs up all Waltham Sewing Machines. If anything goes wrong, if any parts prove defective, the manufacturer makes good, without cost to you.

THE WALTHAM MODEL "C."
No. 75390 Price $42.37

Notwithstanding that this WALTHAM "C" is remarkably low in price, it is, nevertheless, a strictly dependable sewing machine, which, within its limitations, will give good satisfaction. Naturally it will not compare with the better grades, which are cheaper in the long run.

The Dependable Waltham Model "C"

No. 75390 Price $42.37

Specifications:

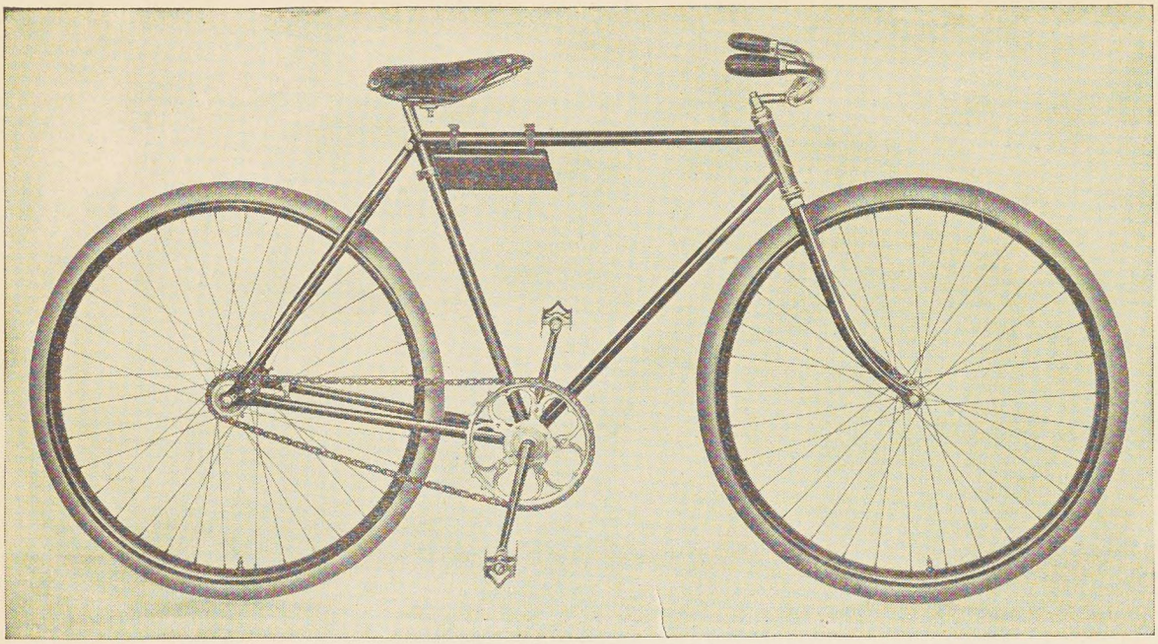

Good, substantial double lock stitch sewing head, well finished with black enamel.

Plainly built, well finished oak cabinet, having four side drawers, center drawer and transfer tape measure on table. Sewing head is raised to position by hand.

Accompanied by a good substantial set of steel attachments, packed in a neat box as shown in illustration.

The stand, which is cone bearing, is well finished in black enamel and is strongly built and well braced.

A Quick Shaver A Time Saver A Blade Saver

Easy selling and every sale makes an enthusiastic customer.

The most delightful shave is the shave the head barber gives you. You can get that identical delightful head-barber shave with the Auto-Strop Razor because it is simply the same edge that the head barber uses, only it is ingenuously constructed so that a novice can strop it as expertly as the head barber, and can shave with it as expertly as the head barber, and can't cut himself.

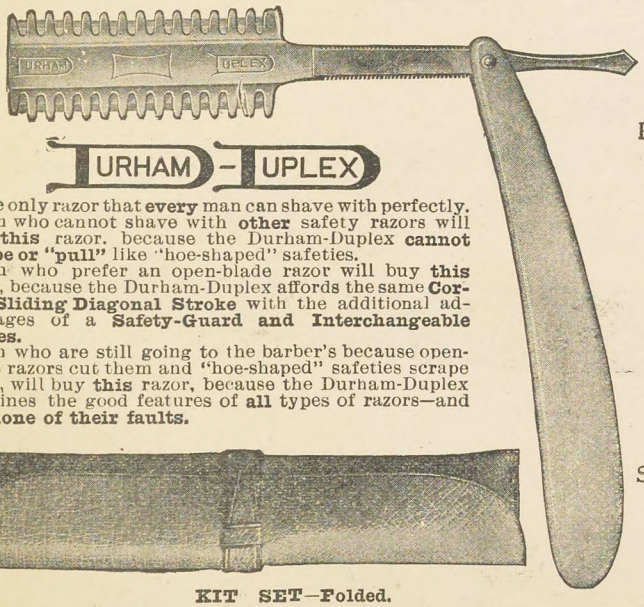

Strops, shaves and cleans without detaching blade.

THE "SANITARY" (Patented)

consists of heavily silver plated razor, twelve blades, strop, fine quality shaving brush and soap. Put up in compact, ventilated leathe case, round ends, size 3¾x5½ inches, with ivory celluloid lined, ventilated, moisture-proo compartments.

No. **75407.** Complete set. **$20.92**

DURHAM-DUPLEX

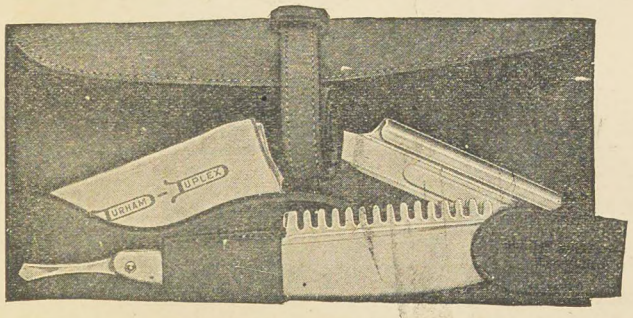

The only razor that **every** man can shave with perfectly.

Men who cannot shave with **other** safety razors will buy **this** razor, because the Durham-Duplex **cannot scrape or "pull"** like "hoe-shaped" safeties.

Men who prefer an open-blade razor will buy **this** razor, because the Durham-Duplex affords the same **Correct Sliding Diagonal Stroke** with the additional advantages of a **Safety-Guard and Interchangeable Blades.**

Men who are still going to the barber's because open-blade razors cut them and "hoe-shaped" safeties scrape them, will buy **this** razor, because the Durham-Duplex combines the good features of **all** types of razors—and has **none of their faults.**

For those who prefer a pipe system, there is nothing made which is the equal of the well-known "ARCOLIGHT SYSTEM." Absolutely non-carbonizing, containing no asbestos, wicking or other packing, made of the highest quality brass and copper bronze, carefully tested and fully guaranteed. We take it back at our expense if not up to the high standard we claim for it.

The GENERATOR never contains over a teaspoonful of gasoline at any one time, it being immediately and constantly turned into the highest grade of illuminating gas, which is supplied to the lamps through galvanized rolled steel piping.

The light given is 600 candle power per mantle either upright or inverted; the cost for fuel is less than one-third cent per hour per mantle. Send a diagram with your order, marking points where lights are wanted, distance between each, and giving the height of your ceiling. Systems will be put up exactly as per your measurements and guaranteed to be as per your specifications. All systems are shipped complete and ready to set up, every section of pipe comes numbered, so there is no difficulty in connecting the correct sections, there being no soldering, cutting or fitting to do.

OUTFIT COMPLETE consists of generator, 5-gallon galvanized steel tank, brass pump, lamps, galvanized steel piping fitted with brass screw couplings, one elbow and all connections, wrench, wax taper holder and tapers, globes, mantles, etc., shipped carefully boxed and ready to install.

We show above the wonderful single and double inverted lamps, the most perfect and absolutely satisfactory lamps on the market.

The light given from one of these lamps is of full 600 candle power per mantle, the cost for fuel not exceeding 1-3 of a cent per mantle per hour. The powerful white light given from one of these lamps will illuminate a space from 25 to 35 feet square. These lamps are positively guaranteed to be perfect, reliable and satisfactory in every way when operated according to directions that accompany each lamp. The material used is of the best obtainable quality brass throughout, beautifully finished in oxidized copper. All lamps are equipped with our new self-cleaning device, whereby the needle seat may be cleaned by simply opening and closing the small valve at one side of the lamp. The style "S" lamp is equipped with one of our new instantaneous process that enables you to keep a very small pilot light burning which can in an instant be turned to a full 600 candle power light. The cost for operating this lamp is very low.

Any of these lamps can be operated on the same system or on any low pressure hollow wire system. All systems are shipped complete and ready to set up as per diagram that should accompany the order.

WATCH REPAIRERS' TOOLS

We illustrate here only small tools required by the apprentice; also the merchant who occasionally finds it necessary to fit movements into cases and do other minor repairs

We can furnish everything in watchmakers' and jewelers' tools—such as lathes, foot power wheels, countershaft and other lathe attachments. We solicit correspondence.

STANDARD RING GAUGE.

The Standard Gauge used for ascertaining sizes of rings. Every merchant should possess one. Its use will prevent errors and unnecessary loss of both time and money. The Gauge is a metal, tapered tube, calibrated to one-quarter size, nicely nickel plated and fitted with rosewood finished wood handle. Order No. 51. Standard Ring Gauge.

Price, each, net **$2.66**

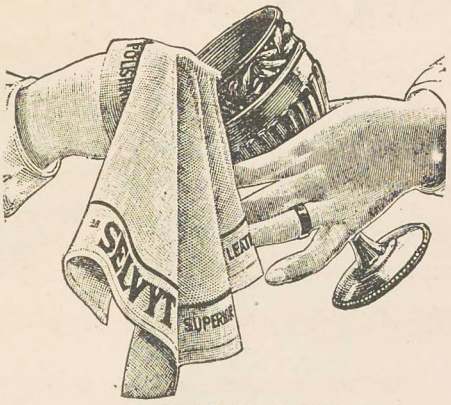

SET OF RING FINGER SIZES.

You cannot learn of finger size without this set of rings. The use of a piece of string or small strip of paper is very unsatisfactory and uncertain. With this set of rings one can get finger size in a few seconds without the slightest guess work. Each ring is stamped with number in whole and half sizes. The half sizes are indicated with a small line (—). For example: Finger size 8 is indicated by "figure 8"; finger size 8½ is indicated by figure 8—. This set of ring finger sizes conforms to sizes on standard ring gauge; they are nicely nickel plated and finished.

Order No. **52** Set of Ring Finger Sizes.

Price **$2.13**

SELVYT CLOTH.

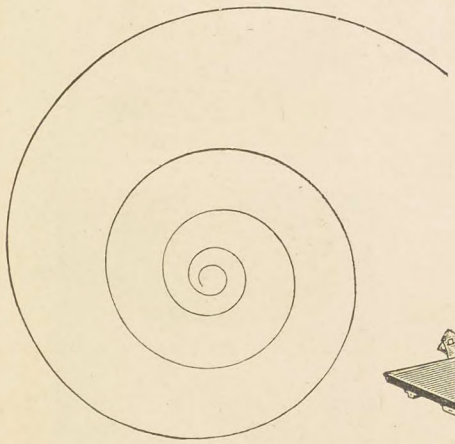

It Is Far Superior to Chamois.

A special prepared cloth with velvet effect surface especially adapted for cleaning and polishing watch cases, jewelry and silverware. When dirty it can be washed, and after dried can be used with same effect as if new.

Will outwear chamois many times. You will make no mistake in accepting it for your own use, and recommending it to your customers.

We furnish the following sizes:

Repairing and Jobbing Department

Manufacturing, Altering, Repairing, Engraving, Enameling, Photographing.

S.F. MYERS CO. NEW YORK.

IMPORTANT—We are Specialists in Handling Orders Received by Mail. Long Experience Has Learned Us to Correctly Interpret the Wants of Our Customers as Expressed in Writing, and Our System is Adjusted to Handling Such Orders Quickly and Accurately.

WATCH REPAIRING.

Skilled repairers only employed. Our work warranted for one year.

Everything in watches, watch cases, gold jewelry, hair jewelry, silverware, spectacles and eyeglasses, opera glasses, music boxes and musical instruments, meerschaum pipes, gold pens, etc.

We make a specialty of repairing fine chronographs, repeaters, chronometers, etc.

We have on the premises one of the most completely equipped jobbing and repair shops in the trade, in charge of a superintendent of over thirty years' practical experience, and can make to order in special designs anything in the jewelry line, and repair any kind of work pertaining to the trade, and can assure all orders prompt and satisfactory attention at the lowest prices.

To facilitate, address **"Job Work Department"**; attach address card to parcel. When a number of jobs are sent, attach a tag to each particular article, stating thereon what is desired.

When only special work is wanted, instruct us to that effect; otherwise we will use our own judgment in finishing up and making a complete job.

Light articles when sent by mail should be registered. We will reship and insure, when requested. (See pages 3 and 4 for other shipping instructions.)

If any customer desires an accurate idea of cost of repairs on any watch, by sending it to us we will cheerfully make an estimate of the cost of same **without charge** and hold for instructions.

PHOTOGRAPHIC WORK ON WATCHES, ETC.

We have in our employ a skilled artist, whose especial business is the reproduction of high-class photo miniatures, on watch cases, dials, etc. These photographic copies are absolutely permanent, and will not fade or chip off. With regard to prices you will find that on these, as well as on all other quotations in our Catalogue, considering the quality of the work, we are lower than any.
